Qualitative Information regarding the Financial Results for the Six Months Ended April 30, 2020

(1) Explanations of Operating Results

During the six months ended April 30, 2020, the business environments in Japan and abroad were tough due to the impact of the new coronavirus infection, which put downward pressure on the economy. In addition, in international affairs, concerns about tensions over trade issues, uncertainty about the future of the economy and the situation in some regions continued to be seen.

Under such circumstances, H.I.S. Group reorganized its business execution structure to respond to its expanding business domain. H.I.S. Group also continued its efforts to build a new business model that can contribute to world peace as a company constantly changing and developing not only through travel business but also through various businesses with its corporate philosophy "Contributing to the creative development of humanity and world peace by complying with the law of nature".

Operating results by business segment are as follows. The amount of each business segment is the amount before eliminating intersegment transactions.

(Travel Business)

During the six months ended April 30, 2020, the number of Japanese travelers departing from Japan decreased by 36.0% year-over-year to 6.32 million, and the number of foreign visitors to Japan decreased by 44.5% year-over-year to 8.91 million as the impact of the new coronavirus infection began to emerge in late January and subsequently spread to many markets, and as travel restrictions and other measures were tightened in many countries. (Source: Japan Tourism Board (JNTO))

Regarding the travel business in Japan, in addition to reviewing the timing of the start of programs, such as rolling out a family campaign at a more appealing time of year, recovery campaigns in various areas, and nationwide online sale, the corporate business developed a new crisis management system and released an emergency evacuation assistance service as a new service. However, each market was affected by a series of flight cancellations, increased travel restrictions, and self-restraint of travel in the domestic market, resulting in a significant decline.

Regarding the travel business overseas, in addition to sales increase due to RED LABEL VACATIONS INC., which was consolidated from the 3rd quarter of the previous consolidated fiscal year, 11 sales locations were newly opened, including various specialty sales locations. The number of H.I.S. Group's sales locations was 258 in Japan and 269 in 163 cities in 69 countries outside of Japan as of the end of April 2020 as a result of opening new locations and consolidation.

As a result of the above, the Travel Business recorded net sales of 299,589 million yen (88.9% of the same period last year), and operating loss of 1,676 million yen (operating profit of 6,201 million yen in the same period last year).

(Huis Ten Bosch Group)

At Huis Ten Bosch, in addition to various measures to attract more visitors such as "Passport Revolution" in which attractions that used to be charged separately are now available by passport, and "Huis Ten Voice Campaign", an attempt to gather feedback from a wide range of visitors to make improvements, "Kingdom of Light", a winter event, featured "World of White and Silver," an unprecedented all-white illumination event. However, the effects of the spread of the new coronavirus began to emerge in late January, and due to the temporary closure of the park for 18 days from February 29 until March 15 and the subsequent sharp drop in domestic travel demand, the number of visitors was 1,040,000, 79.8% as compared to the same period of the previous fiscal year.

As a result of the above, Huis Ten Bosh Group recorded net sales of 9,848 million yen (71.9% of the same period last year) and operating loss of 505 million yen (operating profit of 2,680 million yen in the same period last year) during the six months ended April 30, 2020.

(Hotel Business)

In the Hotel Business, domestic and overseas hotels were affected by the spread of the new coronavirus from late January, and room bookings began to decline, resulting in a difficult outcome. In addition, Green World Hotels Co. Ltd. (Taiwan), as a result of rapid deterioration of operating results, recorded impairment loss on a portion of its fixed assets as an extraordinary loss.

As a result of the above, the Hotel Business recorded net sales of 6,470 million yen (104.3% of the same period last year), operating loss of 494 million yen (operating profit of 467 million yen in the same period last year) and EBITDA of 1,244 million yen (119.2% of the same period last year) during the six months ended April 30, 2020.

(Kyushu Sanko Group)

The Kyushu Sanko Group's real estate leasing business and marine transportation business were solid as a result of the opening of the large-scale commercial facility "SAKURA MACHI Kumamoto", but the travel, bus, and other businesses were impacted by the spread of the new coronavirus. Due to these reasons, net sales were 12,394 million yen (111.1% of the same period last year) and operating profit was 198 million yen (66.5% of the same period last year) during the six months ended April 30, 2020.

(Energy Business)

In the Energy Business, in addition to the opening of the Nagoya sales office as a base for the Chubu region to strengthen sales agents, the promotion of alliances with companies in the Kansai region led to an increase in the number of contracts, and the strengthening of advertising on the Internet contributed to sales in the electric power retail business. Due to these reasons, net sales were 14,006 million yen (150.9% of the same period last year) and operating profit was 933 million yen (256.8% of the same period last year) during the six months ended April 30, 2020.

As a result of the above, H.I.S. Group recorded net sales of 344,353 million yen (91.1% of the same period last year), operating loss of 1,469 million yen (operating profit of 8,979 million yen in the same period last year), ordinary loss of 760 million yen (ordinary profit of 8,874 million yen in the same period last year), and net loss attributable to owners of parent of 3,459 million yen (net profit attributable to owners of parent of 4,964 million yen in the same period last year) during the six months ended April 30, 2020.

(2) Explanations of Forward-Looking Statements including Financial Forecasts

The business environments are expected to remain extremely challenging due to the rapid deterioration affected by the new coronavirus infection, and there are concerns that the spread of the disease could have a further negative impact on the domestic and overseas economies. In addition, a rapid decline in consumer spending due to declining corporate earnings and a worsening employment situation could have an impact on H.I.S Group's results of operations.

Since the previous announcement on March 2, the World Health Organization (WHO) declared a pandemic of the new coronavirus infection on March 11, and outing and travel restrictions have been implemented in many countries around the world. It is expected that H.I.S. Group's business activities will continue to be affected by the timing of the lifting of these restrictions.

Under these circumstances, it is difficult to reasonably calculate the impact of the spread of the new coronavirus on H.I.S. Group's financial results at this stage. Therefore, the full-year consolidated financial forecasts announced on March 2 have been withdrawn and are still undecided. Consolidated financial forecasts will be announced as soon as reasonable calculations of financial forecasts become available.
