I. Changes in Accounting Standards

Changes in Accounting Standards

Introduction of the New Standards for Revenue Recognition · · · Revenue is recognized when control of the promised goods or services is transferred to the customer in the amount expected to be received in exchange for those goods or services.

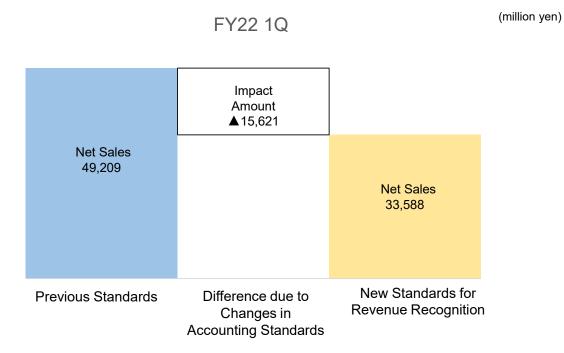

Major Changes

	① Amount of Net	Sales Recognition	②Timing of Sales Recognition			
	Previous Standard	New Standard	Previous Standard	New Standard		
Tours (Planned Travel)	Total Amount	「Transaction as a Principal」 = Total Amount (※1)	Departure Date	Progress Date (※2)		
Airline Tickets (Arranged Travel)	Total Amount	「Transaction as an Agent」 = Net Amount	Departure Date	Arrangement Completion Date (%3)		

- ※ I. Fuel surcharges, airport fees, etc. are excluded because they are collections for third parties.
- 2. Revenue is recognized on a pro-rata basis over the travel period.
- ※3. Under the contract with the customer, "the time when the arrangement is completed = arrangement completion date" is the time when H.I.S. Group's service provision is completed.
- ※4. Incentives are treated as "arrangement sales" for arranged travel and as "purchase rebates" for planned travel.
- ※ 5. The basic concept with regard to transactions other than travel is also the same (= to distinguish between "transaction as a principle" or "transaction as an agent". In principle, all transactions (other than travel) are within the scope of the new standards, but are not applicable from the standpoint of materiality.

Changes in Accounting Standards

① Introduction of the New Standards for Revenue Recognition (Continued from the Previous Page)

② Changes in Presentation Method of the Theme Park Business

Some of the expenses in relation to the operation of the Theme Park Business, previously presented as "Selling, General and Administrative Expenses," are now presented as "Cost of Sales". Figures for the previous fiscal year have also been retroactively adjusted.
